

Job Description: Superintendent

Alternative Titles: Site Superintendent

Revised: April 2009

Business Unit: Construction

Employee Type: Exempt

Reports To: Site Manager

Purpose: Plan, develop, coordinate and manage specific construction activities for large, extensive EPC projects.

Work Schedule: Varies by location. Must have open availability any time any day of the week.

Essential Skills (*may include but are not limited to the ability to*)

- Plan, coordinate and/or supervise construction activities of job foremen, craft employees, and field engineers on assigned project.
- Ensure project is constructed in accordance with design, budget and schedule.
- Interface with Site Manager, Project Manager, Project Engineer, client representatives, and subcontractors to ensure all company, client, and project policies and procedures are adhered to.
- Interface with Project Engineer and Project Manager as necessary to review constructability of design with the goal of meeting quality, cost and schedule commitments.
- Interface with all project team members as required in the establishment of project schedules and resolving schedule problems.
- Represent company and project team during bid process, project scope development, client meetings and project management meetings.
- Assist with the implementation/interpretation of safety programs.
- Work with in precise limits and standards of accuracy
- Follow oral and written directions
- Work within company policy as outlined in the Lauren Engineers & Constructors Administrative Handbook and in compliment with the LEC Human Resources Policy Manual, LEC Safety Manual and OSHA Safety rules.
- Perform other duties as assigned by the Manager of Estimating and Projects as needed.

Essential Qualifications

- Seven (7) years of formal training and experience in heavy industrial projects such as refineries, petro-chemical complexes, power plants, etc.
- Familiar with construction methods, techniques, and labor requirements and how they apply to industrial construction projects.
- Ability to effectively interact with project team members, clients, subcontractors, and craft employees.
- Possess excellent leadership skills and have the ability to effectively manage craft employees, budgets, and construction schedules.
- Knowledgeable of current construction technology such as Primavera P3 and Expedition preferred.
- Must be capable of obtaining applicable state construction licenses as required
- Hands-on job foreman experience

Physical Requirements

- Stand or walk for long periods of time
- Use arms and hands to reach for, handle or manipulate objects
- Lift and carry materials weighing up to 50 pounds; occasionally lift items weighing more than 50 pounds with assistance
- Climb up and down ladders, scaffolds and other objects while carrying tools and equipment
- Stoop, kneel, crouch and crawl
- See well (naturally or with correction)
- Eye-hand coordination
- Good physical fitness
- Good sense of balance
- Work at great heights

Tool Requirements

- None

Environment: Works out of a main office or out of a field office at the construction site, monitors the all phases of the construction project, may travel extensively when not assigned to a construction site, usually entails temporary residence away from primary residence, deals with delays, the effects of bad weather, or emergencies at the site. Although the work usually is not considered inherently dangerous, must be careful while performing onsite services.

Employee/Candidate Review Acknowledgement

I acknowledge that I have read the Job Description and I understand what would be expected of me. The Company reserves the right to change or reassign job duties or to combine positions at any time. I also understand that, if hired, I am an at-will employee, and this Job Description does not constitute a contract of employment.
