

COMPANY HISTORY

Founded in 1984, Lauren has grown from a small, specialty construction company to an international contractor, offering engineering, procurement and construction services. Integrity, quality, safety and performance have been committed core values from the very beginning and have helped Lauren to achieve success. Over the last 25 years, Lauren has positioned itself as the leading contractor in the polymers industry and has completed key projects for the power, refining, pulp & paper, and maintenance industries.

Recently, Lauren has continued to grow through acquisitions, partnerships and strategic alliances. In addition, Lauren has performed an increasing amount of work for international clients, adding to our experience and capabilities. Lauren has offices strategically located throughout the US and Canada to meet your project needs.

KEY CLIENTS

The Lauren Corporation

FACT SHEET

The Lauren Corporation...

is an international contractor specializing in full-scope services, including engineering, construction, project management, fabrication and industrial services. Backed by over 25 years of experience, Lauren serves the following industries: alternative energy, power, materials handling, special metals, pulp & paper, chemicals, polymers and refining. *We are committed to excellence for our customers and our employees on every project, everyday.*

OUR MISSION

Lauren helps our customers succeed by providing innovative solutions and by designing and building the highest quality facilities with timeliness, integrity and skill.

COMPANY FACTS

- ◇ Founded in 1984
- ◇ Chairman, President and CEO: C. Cleve Whitener III
- ◇ 7 North American Offices, throughout The United States and Canada.
- ◇ Completed projects range from \$5,000 shutdowns to \$130 M EPC power plants.

OUR VISION

Lauren's vision is to be a light to the world and the contractor of choice through constructive and caring relationships with customers, suppliers and peers.

WHY LAUREN?

- ◇ 25 years of proven experience
- ◇ Excellent safety record
- ◇ 50% of our work is from repeat clients
- ◇ In-house engineering, fabrication and modularization capabilities
- ◇ #1 EPC contractor for PET solid staving and CSP solar facilities in the US
- ◇ Involved in the design and construction of over 5000 mw of both coal, gas and solar power plants
- ◇ Experienced contractor in the relocation of process plants
- ◇ Multi-discipline, tenured industrial services specialists with experience in all regions throughout the US and Canada
- ◇ Database of over 20,000 pre-screened, qualified craftsmen

MARKETS/SERVICES

POWER

Lauren provides complete turnkey solutions to the electric utility market. Services include planning, design, procurement, construction, and maintenance for the production and delivery of power in the following areas:

- ◇ Simple and combined cycle combustion turbine generation
- ◇ Cogeneration
- ◇ Coal/Lignite fired generation
- ◇ Renewable (Concentrated Solar Power)
- ◇ Environmental products & technical solutions
- ◇ Studies, assessments and analyses
- ◇ Plant betterment
- ◇ Plant maintenance
- ◇ Construction monitoring
- ◇ Substations
- ◇ Transmission lines
- ◇ Distribution system
- ◇ System studies

POLYMERS/CHEMICALS

Lauren's strong knowledge of the process technologies in commodity and specialty chemicals and polymers makes us uniquely qualified to provide engineering, procurement and construction services in these highly competitive markets.

Over the last decade, Lauren Engineers & Constructors has been a major supplier of engineering and construction services for the manufacture of Terephthalic Acid and Polyethylene Terephthalate, with built facilities ranging from grass root plants to modifications and expansions.

REFINING

Lauren offers full scope EPC services to the refining industry for the construction of new facilities and revamps of existing facilities.

These services include:

Overall project management from economic studies through unit startup.

Process design and equipment specification, including:

- ◇ Crude Distillation
- ◇ Naphtha Catalytic Reforming
- ◇ Fluid Catalytic Cracking
- ◇ Vacuum Distillation
- ◇ Hydrodesulfurization
- ◇ Alkylation (Sulfuric and HF)
- ◇ Thermal Visbreaking - Product Treating
- ◇ Cryogenic Recovery of Light Hydrocarbons

INDUSTRIAL SERVICES

Lauren is an experienced industrial services specialist for numerous clients throughout the US and Canada. Over the past 20 years, Lauren has executed outages for many industrial clients, including full-scope construction, mechanical and electrical, projects with completion critical schedules, and product delivery demands.

Clientele for service and maintenance work scopes includes the paper and pulp industries, power generation facilities, manufacturing and production plants, and the petrochemicals industries.

Services Include:

- ◇ On-site Equipment Installation
- ◇ Client Maintenance Department Support
- ◇ Full Scope Services
- ◇ Outage and Startup Support for both Customer and Lauren Projects
- ◇ Material Handling Equipment
- ◇ Custom Production Equipment Design and Manufacturing
- ◇ Robotics
- ◇ System Integration
- ◇ Custom Control Systems and Panels (in conjunction with Fabrication)

FABRICATION

Lauren Engineers & Constructors works under in-house quality and safety programs and maintains these code certifications: A, PP, U, R, and S. We have a 35,000 sq. ft. enclosed shop, certified craft workers and years of experience ready to work for you.

Lauren Fabricators, a division of Lauren Engineers & Constructors, Inc., is a full service custom fabricator specializing in:

Assemblies

- ◇ Skid Assemblies
- ◇ Platforms
- ◇ Pipe Spools
- ◇ Pipe Supports
- ◇ Plate Assemblies
- ◇ Boiler Components
- ◇ Control Panels
- ◇ Pressure Vessels/Heat Exchangers
- ◇ Tanks

Services

- ◇ Automatic Welding
- ◇ Stress Relieving
- ◇ Grit Blasting
- ◇ Polishing
- ◇ Painting
- ◇ Grooving
- ◇ Machining of Special End Preps
- ◇ Computerized Material Control
- ◇ Computerized Scheduling and
- ◇ Tracking
